Once you have logged into your new account you will need to register your new unit.

- Click the arrow next to the user ID this will open a drop-down menu
- Select *Add instrument* from the menu

Now select either the iVIBE or iDB instrument name from the drop-down menu and enter the 5character ID which can be found in the instrument's paper work and on the label on its enclosure. The ID consists of a letter followed by 4 more numbers or letters. For iDB, it will begin with the letter E, for iVIBE with the letter V (as shown below):

Instrument Name:"	iVibe	Y
Instrument ID:*	V O001 Instrument ID avilable!	
Instrument Type:*	V	T
Country:*	United Kingdom	¥
City:*	Northwich	Y
TimeZone:	Etc/GMT+12	▼ □Enable (?)
Location Detail:		
Latitude:		
Longitude:		
Hostname/IP Address:*	10.209.000.001	
Port Number:*	10002	
Visibility	Private	Y

- Enter the country and city as these are mandatory fields and enter the IP address which can also be found in the paperwork and on a label inside the door of the Power Portal.
- The port number should be set to 10002.
- Click *Add instrument* button.

You will now see your newly added instrument:

Menu 10 V0001	iVibe	Name Northwich	Location
U0001	iVibe	Name Northwich	Location
	iVibe	Northwich	
5 =			
There is no data available	for this instrument.		
This site is hosted and maintained b	v: Turnkey Instruments Ltd.		

Click the menu button and click *Start/Stop Sampling*, then select the serial number of the instrument that you want to start.

- Click the Enable Auto Clear memory check box (recommended)
- Then click the *Start Online Sampling* button.

≡ Instrument	Information						
	ID	Name		Location		GPS Coordinates	
V0001	iVibe		Northwich		53.2667,-2.50000		
Start/Stop	Sampling						
Enable Au	to Clear Memory (?	?)					
Start Offline	e Sampling						Start Online Sampling

You will then see the reply from the unit.

≡	Response
Or	line sampling started successfully

As in the example below, you should see readings begin to plot in the latest data section
